Manufacturer & Stockholder

Stainless steel • Aluminum • Carbon steel • Titanium

# Nordic Flanges

## We are

One of Europe's leading manufacturers and stockholders of standard and special flanges in all types of stainless steel, titanium, special alloys, carbon steel and aluminum.

## We offer customers

60 years of experience and unique know-how about the entire process – from production to stockholding and logistics solutions.

Short lead times for high quality products to customers that value flexibility, a high service level and the industry's best material knowledge.

# Nordic Flanges Group

Our Offer

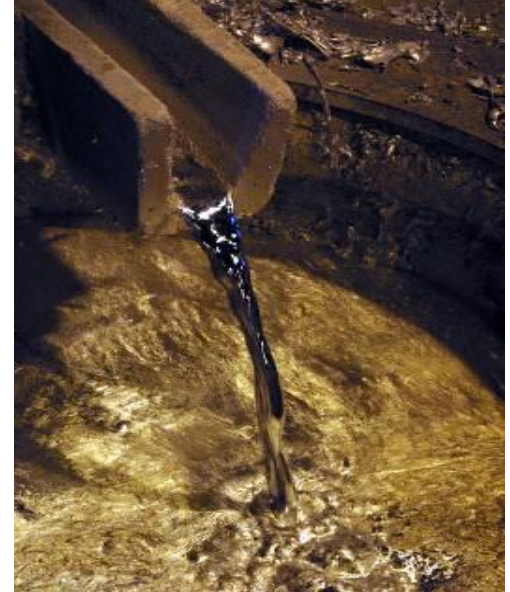

# Our Product Offer

- **Stainless Steel**
  - Flanges according to all international and industry standards
  - All flange types: W.N, Flat, Loose, Threaded, Socket, Blind etc.)
  - Welding rings according to EN 1092-1
  - Custom made products based on customer drawings
  - Forging range DN 10 - 400, up to 115 kg
  - Welding range DN 10 - 2100
  
- **Aluminum**
  - Blind and loose cast flanges in all standards DN 10-1200
  - Custom made products based on customer drawings
  
- **Carbon Steel**
  - Flanges according to all international and industry standards
  - All flange types: W.N, Flat, Loose, Threaded, Socket, Blind etc.
  - Custom made products based on customer drawings
  - Dimensions up to DN 2100

# Our Production

# Själevad

- **Stainless steel forging**
  - Stock of raw material (EU origin) and semi-made products
  - Heat treatment
  - Trimming press and plasma cutting
  - Welding
  - Machining
  - Laboratory
- **Welding ring with collar**
  - Dimensions up to DN 1400
- **Materials**
  - Austenitic grades, 304L, 316L, 321H, 254 SMO
  - ...
  - Duplex grades, F51, F53, F55 and others
  - Special metals, Titanium grade II, B381 F2

# Kronoby

- Aluminum Casting
  - Casting of standard flanges in standard alloy EN AC-47000 Al-Si 12 (Cu)
  - Aluminum alloys acc. to customer spec.
  - Custom flanges - from mould designing to final machining
  - Blank or with epoxy polyester powder coated

# Kalajoki

- Carbon steel and stainless steel production
  - Production of standard and special flanges by flame and plasma cutting from plate
  - Advanced machining of flanges
  - Manufacture of products according to customer's drawings
  - Welding, Forming

# Certified operations

Our factories have the following certificates:

- ISO 9001:2008
- PED 2014/68/EU
- ISO 3834-2:2005
- ISO 14001:2004
- EN 1090-2:2008+A1:2011

Our operations are certified by all major Notified Bodies and AVL for Industry Segments:

TÜV, BUREAU VERITAS, GERMANISHER LLOYDS, LLOYDS REGISTER, TR-GOST, INSPECTA, DNV, STATOIL, BP, SWEDISH NUCLEAR, INSPECTA

Our products are manufactured according to European, American and all other international standards, for example:

EN/DIN  
ASME/ASTM  
NORSOK M-650  
JIS  
GOST

## Nordic Flanges

Flänsar och rördelar i rostfria stål, kolstål, titan och aluminium.

### Välkommen till Nordic Flanges – Er kompletta flänsleverantör

Vi är sedan 50 år tillverkare av flänsar och idag en ledande leverantör på den nordiska marknaden.

Vår mission är att vara det naturliga valet vid krav på snabba leveranser, både på våra hemmamarknader och vid export utanför Norden. Vårt kvalitetsmål är leveranssäkerhet.
